PROJECTS

Stack Overflow Clone (11/2022)
- A Mern Stack Project, Stack Overflow clone with all the features of login, signup, posting questions, answering the questions, like and dislike, etc.
- I used software, tools and languages like **HTML, CSS, JavaScript, React.Js, Node.Js, MERN stack, Redux.**
- I used MongoDB for database storage in this project.

Netflix Clone (03/2023)
- Mern Stack project that allows users to sign up and login to their account and view list of movies fetched from TMDB API. User can filter movies based on category and add/remove them from his/her list.
- I have used React.js for frontend and Node.js for backend. The user authentication is done via firebaseAuth and user's movie data is stored in MongoDB.
- The project code is pushed on Github and deployed on Render.com (https://netflix-clone-ui.onrender.com/login)

Gym Website (07/2022)
- A website made from scratch for a local gym in which user can signup/login to the website, see and select different gym plans for him/her.
- We used software, tools and languages like **HTML, CSS, JavaScript, PHP, MySQL, PHP MyAdmin.**
- We git pushed the project.

EXTRA CURRICULAR ACTIVITIES

Taught some underpriviledged children at High School Program.
St. Thomas School.
2016

Participated in Quiz at school level.
JVM Shyamali.
